Acoustic Adhesive

Category: Accessories

Technical Data Sheet

Cascade Audio Engineering's acoustic adhesive is designed for permanent bonding of acoustic panels and floor tiles. Use it in conjunction with CAE's Web Spray adhesive when installing acoustic panels. Web spray, used in conjunction with CAE's Acoustic Adhesive will provide a temporary bond while the caulking adhesive sets.

Applications:

- Home Theater / Home Office / Library
- Office / Conference Room
- Recording Studio
- Commercial

Benefits:

- Cost Effective
- Essential for High STC Walls/Floors
- Water and weather resistant
- Solvent Free

Properties:

Color	Light Gray
Size	29 oz. Tube
Thickness.....	1/4" to 3/8"
Installation.....	Caulking Gun
Flammability.....	ASTM E-84-76 Class A
Coverage.....	1/4" bead = 86 lin.ft. per tube 3/8" bead = 38 lin. ft. per tube
