SB-Barricade™

Category: Sound Barriers

Technical Data Sheet

SB-Barricade Fiberglass Ceiling Tile with Barrier®

Designed for drop ceiling grids, SB-Barricade offers sound absorption to tune the space and sound blocking ability for the space above. SB-Barricade consists of fiberglass absorption, Mass loaded vinyl, and has either a standard white “nubby” or black felt finish.

The nubby finish is perfect for office environments, while the black felt is perfect for home theater. The 2” SB-Barricade has a NRC of 1.05 and a STC of 32

MATERIAL: Fiberglass core with F/G fabric facing.

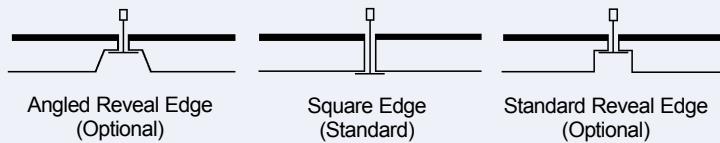

APPLICATIONS: Any place where high performance acoustics is required.

SIZE: Available in 2' x 2', 2' x 4' or custom sizes. Installs in T-Bar grid.

INSTALLATION: Lay-in grid

FLAMMABILITY: ASTM E-84 Class 1-A, nonflammable.

EDGE OPTIONS

2" NRC 1.05 / STC 32

1" NRC .95 / STC 27
