DBA Panels

Category: Diffusor / Blocker / Absorber

Technical Data Sheet

DBA Panels from Cascade Audio Engineering are made from injection molded polypropylene pellets. Their unique design allow the panel to have diffusion, absorption and blocking capabilities. DBA Panels are available in 1" and 2" thickness, and are easily installed in drop ceiling grids. DBA Panels look great by themselves, but can also be painted or covered with any of our fabric types and over 100 colors.
