Door Seals

Category: Isolation

Technical Data Sheet

Cascade Audio Engineering's automatic door seal system offers 90% of the performance of an expensive soundproof door at a fraction of the cost. The door seals are available in 32" and 36" widths for the standard and professional versions as well as a mortised version for a stealthier install. These seals are designed to close off the acoustical pathway that exists at the base of interior doors. They can be augmented by adding a full perimeter jamb seal to the door system for superior room to room isolation.

Applications:

- Home Theater / Home Office / Library
- Office / Conference Room
- Recording Studio
- Commercial

Benefits:

- Durable / Low Cost
- Easy Installation
- Reduces Sound Transmission
- Mortised Versions Available

Properties:
